*BAA uses certified MSDS Fall General Collection data to pre-identify students in the BAA Secure Site for spring assessments. K-12 students flagged as limited English proficient are pre-identified for the English Language Proficiency Assessment, and all students in grade 11 are pre-identified for the Michigan Merit Examination (MME). If MI-Access is appropriate, the student's test type will need to be updated in the BAA Secure Site from MME to MI-Access. New students can also be added directly through the BAA Secure Site; however, please be aware that unique identification codes are now required to pre-identify students in the BAA Secure Site. The MSDS Early Roster Collection is not used for spring pre-ID; therefore, no district action is required in MSDS for Spring 2014 assessment pre-ID.
